## TANK MIX SHEET

## LIFE SCIENTIFIC TRINEX®

Life Scientific will support the physical compatibility of 2 or 3-way tank-mixes of LIFE SCIENTIFIC TRINEX + chlormequat with the fungicides, herbicides, insecticides, or PGRs listed below.

Mixtures of LIFE SCIENTIFIC TRINEX with Arizona, Phoenix, or Univoq are 2-way only.

The physical compatibility of LIFE SCIENTIFIC TRINEX + chlormequat + sulfonyl urea + fungicide is only supported in winter wheat.

The physical compatibility of LIFE SCIENTIFIC TRINEX + chlormequat is not supported in spring oats.

Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

The following tank-mixes are supported for physical compatibility with LIFE SCIENTIFIC TRINEX at recommended rates of use and will mix in the sprayer tank.

No tests have been undertaken on crop safety or product performance. Use is at user's own risk.

Before using any tank-mixture, consult and comply with the recommendations of the partner products.

Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical.

**PLEASE NOTE:**

The following tank-mixes are supported for physical compatibility with LIFE SCIENTIFIC TRINEX at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety. Provided that all product recommendations are adhered to LIFE SCIENTIFIC TRINEX may be applied in mixture with the following pesticides:
