

The following 2-way tank-mixes are supported for physical compatibility with **RIBER** at recommended rates of use and will mix in the sprayer tank.

No tests have been undertaken on crop safety or product performance. Use is at user's own risk.

Life Scientific will support the physical compatibility of tank-mixes of RIBER with one herbicide or insecticide from the tables below.

Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

Before using any tank-mixture, consult and comply with the recommendations of the partner products.

Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical.

For any tank-mix, observe all restrictions, requirements and directions for use on the labels of both products.

PLEASE NOTE:

The following tank-mixes are supported for physical compatibility with RIBER at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety. Provided that all product recommendations are adhered to RIBER may be applied in mixture with one of the following pesticides:

HERBICIDES

Anthem
Broadway Star
Hurricane
Roundup Biactive*
Spitfire
Sword
Topik
Tower

INSECTICIDES

Decis Protech
Sumi-Alpha

*Ensure spray volume is at least 200 L/Ha. Pre-emergence of the crop only. Add RIBER to the tank-mix first.

Tank-mix sheet produced 04/11/2024

RIBER contains flufenacet and diflufenican.

All other products are those of other manufacturers where proprietary rights may exist.

Use plant protection products safely. Always read the label and product information before use.
